

Lead Developer at NovaCast Systems AB

NovaCast is a growing innovative software supplier within the foundry industry and we are now seeking an experienced Developer with Team Lead skills to join our team. In this role, you will be responsible for leading a team of developers and contributing to the development of new products.

What you will be doing

- Lead and mentor a team of developers to ensure successful project delivery.
- Collaborate with cross-functional teams to design, develop and deliver high-quality software solutions.
- Develop, test and maintain software applications to meet user needs.
- Communicate with stakeholders to gather requirements, and provide project updates.
- Participate in code reviews and provide constructive feedback to team members.

Requirements

- Bachelor's degree in Computer Science, Engineering, or a related field.
- 5+ years of experience in software development.
- Experience in leading a team of developers in a structured development process.
- Excellent problem-solving skills and attention to detail.
- Superior communication skills and ability to work collaboratively with cross-functional teams.

We offer you

- A competitive monthly salary
- Bonus system for all employees
- 30 days of vacation annually
- An annual fitness subsidy of 5000 SEK
- Flexible and dynamic global working environment
- Opportunities for growth and development
- A position where you can make a difference

Additional information

- Scope: Full-time (6 months' probationary period)
- Starting date: Upon agreement
- Location: Ronneby, Sweden, but we are also working to a high extent online

About NovaCast Systems

NovaCast Systems develops, markets and sells systems within casting simulation and metallurgical process control to the foundry industry worldwide. With the help of our products, the quality of castings is improved at the same time as our customers reduce production costs and minimize their environmental impact.

NovaCast consists of a creative and pragmatic team that values transparency and respect. We have our base in Ronneby, Sweden, as well as sales offices in the US and India. Together with a wide network of agents and distributors, we are a global supplier.

Our products and services help foundries analyze, stabilize and optimize their casting process, while reducing their ecological footprint. NovaCast wants to contribute to a more responsible foundry industry through innovation and inspiration. You will find more information about NovaCast at www.novacast.se.

If this sounds interesting and challenging, we can't wait to hear from you!

If you are passionate about software development and leading a team to success, we encourage you to apply for this exciting opportunity. If you're not sure that you exactly fit the above criteria, don't hesitate to get in touch anyway.
